FLEXIMA[®] Spring System

Designed for high-end sleep.

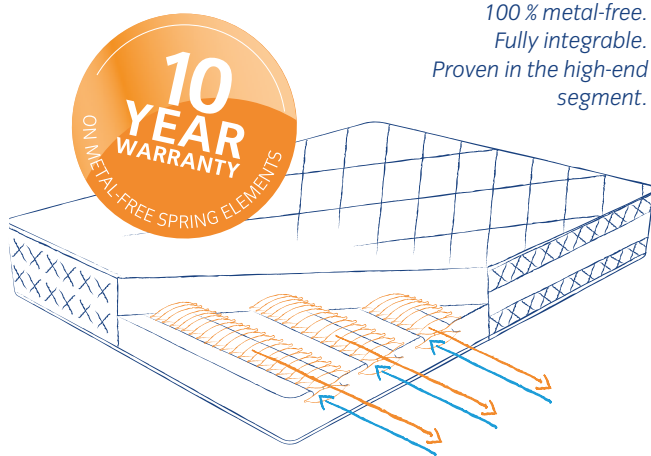

For premium mattress manufacturers

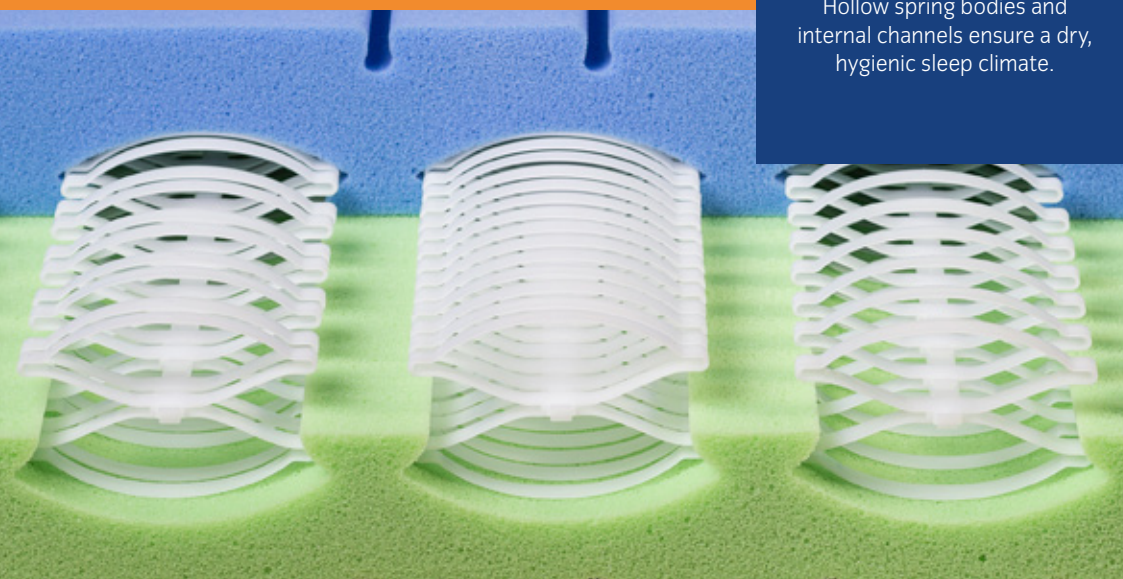

Why FLEXIMA® Spring System?

The FLEXIMA® Spring System is a modular understructure that replaces traditional slatted frames and enhances every foam mattress with customizable support, maximum breathability, and lasting durability.

Adjustable firmness zones

www.flexima.com/system

FLEXIMA® Spring System for all mattress heights and sizes.

100 % METAL-FREE
No corrosion. Noiseless.
No electromagnetic
interferences.

SUSTAINABLE & HYGIENIC
100 % recyclable plastic.
No softeners. No rust. No odor.
10-year warranty.

PERFECT AIR CIRCULATION
Hollow spring bodies and
internal channels ensure a dry,
hygienic sleep climate.

MODULAR & REPAIRABLE
Springs can be rearranged
or replaced individually –
even post-production.

manufacturers ”**

„Working with MM Matratzen Manufaktur GmbH has been a true stroke of luck for us over the years. Their well-engineered and high-quality spring system has significantly enriched our product portfolio and enables us to inspire a discerning and steadily growing customer base with metal-free mattresses.

What impresses us most is the combination of technical innovation, uncompromising quality, and service that sets new standards in every respect. Delivery times are consistently reliable, coordination is seamless, and even short-term requests are handled with maximum flexibility.

We deeply value the cooperative and trustworthy partnership and can recommend MM Matratzen Manufaktur GmbH without hesitation and with full confidence.”
