SY Hetairos

MY Kensho

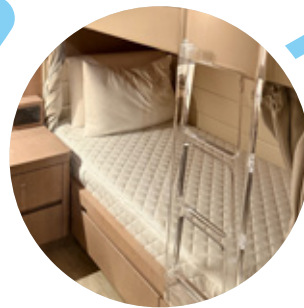

MY Luna

## LUKE GODDARD

CAPTAIN M/Y V ( EX : UU )

As captain of a 50-meter motor yacht, I can say without hesitation that the mattresses supplied by Flexima have made a noticeable difference to life on board. The crew works long hours in a physically demanding environment, and having a comfortable place to rest really matters.

Since upgrading to these mattresses, the feedback has been unanimously positive - better sleep, more support, and a real improvement in overall rest. The mattresses are durable, breathable, and compact without sacrificing comfort. They have held up very well and continue to provide the support the crew needs to recover properly between shifts. The service from Flexima was also smooth from start to finish. They were easy to deal with, understood the specific needs of a yacht, and delivered exactly what was promised. All in all, we're very happy with the result and I'd gladly recommend their mattresses to any yacht looking to improve crew comfort.
